

# BARK IN THE PARK 2022

## Love & Paws Rescue

### About Us!

Founded in 2020, Love & Paws is a non-profit dog rescue working to save the most at-risk dogs in Texas. We take in owner surrenders, strays, and pull from shelters with high euthanasia rates. We are volunteer-run and donation-based, which means every single dollar goes straight to medical care, food, and the necessary supplies needed for fostering and rehabilitating the dogs in our care.

We fight for dogs like Shiner. Shiner was a loyal bird hunting dog for his previous owner for seven incredible years. When Shiner began to limp, his owner learned he tore both of his ACLs and needed surgery. His answer? Euthanasia. He didn't even say goodbye.

We received a call from the vet caring for Shiner and immediately jumped into action. A family stepped up to foster Shiner, and ended up adopting him! We were able to not only get him the surgery he needed, but heartworm treatment as well. He is now living his best life as the brother of two other Love & Paws alumni!
